

# MS Clinics in Australia

**MS Clinics exist across Australia to provide expertise in the diagnosis and management of multiple sclerosis and many have a range of neurological services available. Some are called MS Clinics whilst others are neurology or neuroimmunology clinics. All listed will have specialist experience with multiple sclerosis.**

**Some are large, tertiary referral, multidisciplinary, bulk-billing clinics, others are smaller, private or visiting specialist clinics.**

**Most clinics require a referral from your GP.**

**The list below may help you to find the clinic nearest you, which you can then share with our GP to make a referral.**

**(Where possible we have provided the MS Clinic's web-site details which often contain further details of the services available, how to make appointments and obtain referrals.)**

---

## Tasmania

### **Tasmanian Health Service - South - Outpatients - Multiple Sclerosis Clinic**

Status: Public
