

A world without MS

Our mission is to empower people with MS to live well through:

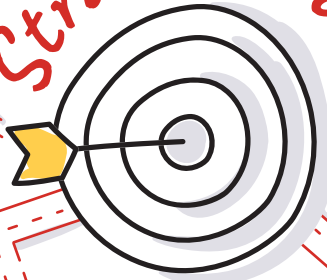

- Research to treat, prevent & cure MS
- Advocacy to drive change
- Education to improve awareness & outcomes

**RESEARCH
ADVOCACY
CURE**

Strategic Goals

Ensure the MS community has a strong voice into governance, research, policy & advocacy, education & awareness

Enhance our advocacy agenda through evidence from people with MS & those affected by MS

Develop a foundation Roadmap for collaboration with the MS community

People living with MS, carers, friends & family

Embed engagement and participation by people with MS, their carers & those affected by MS

Governance & Operations

Continuously improve the organisations financial model

Enhance coordination & communication with our Member Organisations

Strengthen the Research program's governance

Strengthen organisational governance

Be the leading, trusted provider of MS information

Strengthen education & awareness programs

Advocacy

Improve the quality of life for people with MS, their carers & others affected by MS through every stage of the MS journey

Boost access to health services & trusted information

Education & Awareness

Strengthen collaboration with partners

Ensure the MS community has a voice in education & awareness activities

Build the capacity of the research workforce

Facilitate translation & implementation of research outcomes

Fund the best research to manage MS & improve quality of life for people living with MS

Fund the best research to find cures for MS, prevention & better treatments

Research

Collaborate with partners nationally & globally to maximise outcomes

Supercharge funding for MS research
